

## Terminals

**Hoff-Trex® Tubular Lug Terminals**

Hoff-Trex® Tubular Lugs are perfect for industrial wire and cable connections. These are available in one and two-stud, non-plated, tin-plated and color-coded options, and made from high quality copper. The terminals are annealed making for easy crimping, along with seamless barrels for a secure and accurate crimp.

**Engineered to Resist**

Tension

**Features & Benefits****Color-Coded Barrel**

Makes for ease of identification.

**Sight Hole**

For quality check on crimp.

**Available from 8 AWG through 600 MCM**

Perfect for operations of all sizes.

**Made from high quality copper: 110 Cu ASTM B152**

Great for heavy-duty applications.

**Annealed Terminals**

Easier crimping.

**Seamless Barrels**

Provides a secure and accurate crimp.
